

## **Career Opportunities at Earth Engineering**

We're always looking for a few good men and women! If you are interested in soils engineering and have specialized training in this area, or if you hold a related college degree, we'd like to see your resume.

Earth Engineering offers a comfortable, cooperative, and challenging work environment. If you work for us you'll be given plenty of responsibility, and plenty of training and support. We provide competitive salaries, a strong benefits package, and work locations along Colorado's beautiful and vibrant Front Range.

When we have openings they'll be posted here. But please feel free to send us your resume.

### **Current Job Openings**

We are currently seeking to add a geotechnical engineer to our Colorado Springs office.  
P.E. license preferred or ability to obtain within one year.  
Excellent benefits package.
